

## **How do I find out about and make changes to my benefits?**

- Employee benefits are currently provided by United Healthcare.
- You may find and update information regarding your benefits through a website called Bernie Portal. This is simply a site that has combined all of your benefits information for easy access. This website makes for easy adjustments during E Light's open enrollment, as well as after any "qualifying events" like marriage/divorce, birth or adoption.
- The log in page can be found at: [app.bernieportal.en/login](http://app.bernieportal.en/login)
- If you have any questions please contact Human Resources
